Please visit our website for more details

Focus on our Objectives

- Promote the image of TVET sector by drawing attention on the efforts made by public and private sector training providers
- Position the skills competition and the exhibition in the main event for valuing skills
- Develop strategic partnership with the corporate, government & non governmental organizations
- Disseminate information and share knowledge about TVET sector development
- Facilitate for establishing new opportunities to skills development and innovation
- Encourage the transfer and exchange of skills and knowledge among trainees, training providers and industries
